

# FREE Cloud Based Supplier Management Tool For Clients

Become a PQS Registered Client and use the FREE cloud based management tool for managing suppliers, contractors, and other external providers in an effective, efficient, and compliant manner.

PQS Pre-qualification-Scheme™ is a registered SSIP Member providing independent pre-qualification, audit and assessment services to clients and suppliers across all sectors.

We provide a FREE cloud based Supplier Management software for eligible PQS Registered Clients to monitor and manage your supply chain. Partnering with clients, we remove the burden and costs to you of conducting stage 1 prequalification and other

assessments of your supply chain. We assess your supply chain, you manage and monitor them using our FREE cloud based tool.

The functions and features provide you with flexibility and choice on how you brand, use, and configure your own unique cloud based portal. It has been designed by clients for clients with the intent of addressing the many challenges and demands on businesses.

## Duties to Manage Supply Chain

There is increasing legal and third party requirements on businesses to manage suppliers, contractors, and other external providers. The tool is designed to flexibly align with these requirements to allow you to discharge your duties.

- Legislation - Health & Safety Act 1974; CDM Regulations 2015; Management of Health & Safety at Work Regulations 1999; Modern Slavery Act 2015.
- Standards - ISO45001; ISO9001; ISO14001; PAS91; Achilles ; RISQS
- Customers - Sub-sub Contracting.

## CDM 2015

All duty holders must ensure contractors appointed have the appropriate organisational capability (or health & safety competence).

By asking your contractors to complete a PQS Health & Safety Assessment you are successfully meeting this pre-qualification requirement.

PQS is an SSIP Registered Member.

TEL: 0333 567 5670  
EMAIL: [enquiries@pqscheme.com](mailto:enquiries@pqscheme.com)

## Benefits

- ✓ Outsource at zero cost.
- ✓ Reducing the need for in house resources to pre-qualify supply chain.
- ✓ Free access to UK contractors registered with PQS.
- ✓ Comply with legislative duties.
- ✓ Conform with ISO and other requirements.
- ✓ Demonstrate a proactive supply chain approach to your customers.
- ✓ Supply chain information updated in real time.

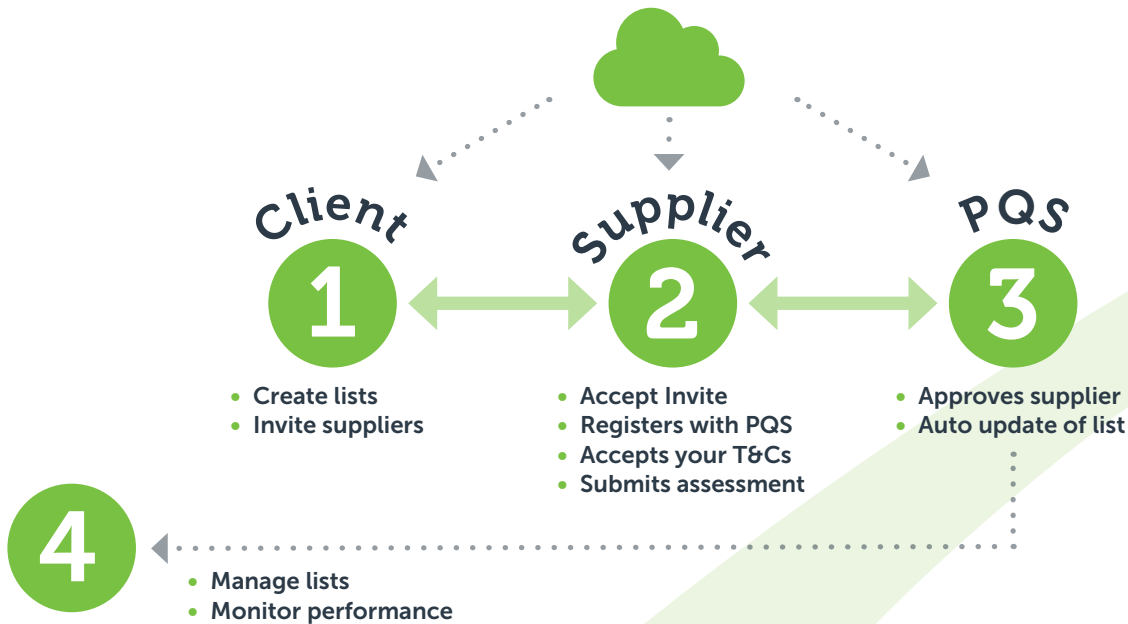

The online portal has transformed our pre-qualification and on-going administration of suppliers and contractors. We have real-time information, saving us time and effort maintaining various approved lists.

SHEQ Manager

# HOW IT WORKS

The **FREE** Cloud Based Supplier Management Tool allows you to manage all suppliers, contractors, and external providers in a secure cloud based portal. The tool is powered by technology developed with support from the Government's Business Innovation programme.

## Functions

### Create Approved Lists

Create different approved lists and pre-qualification criteria for different categories of suppliers, contractors, and external providers.

### Invite/Track

Invite single or bulk suppliers to an approved list and track their status of signup and pre-qualification onto one of your approved lists.

### Manage Approved Lists

Create different approved lists and pre-qualification criteria for different categories of suppliers, contractors, and external providers. Suppliers will be automatically notified when their credentials expire and their status on your list will automatically change.

### Projects

Set-up project site and allocate suppliers.

### Monitor

Monitor performance of suppliers, contractors and other external providers at pre-determined intervals and against your own performance criteria.

## Features

**Choice & Flexibility** - You can tailor the functionality and use all or a few of the modules available.

### Branding

- Company specific domain
- Branded home page
- Branded portal and tables

### Configurability

- Configurable dashboards
- Configurable tables
- Dynamic filtering/searchin
- Configurable roles and permissions
- Export options - pdf/excel
- Configurable email notifications
- Set tags to categorise suppliers

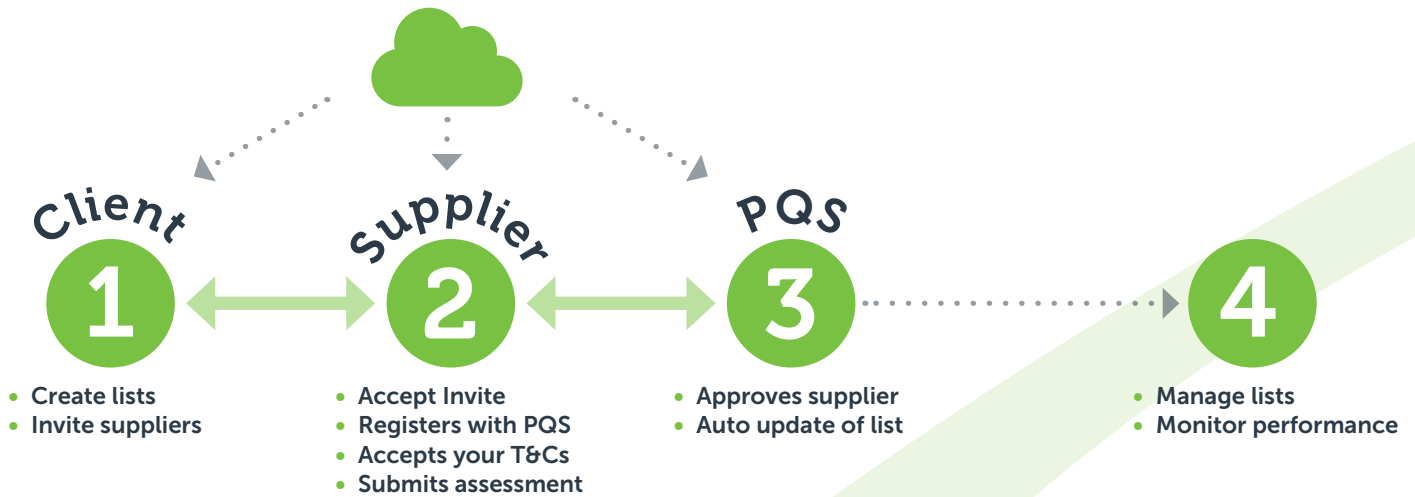

### Users

- Unlimited users
- Assign roles and permissions

We welcome your ideas to evolve the functionality.
