

PQS Pre-Qualification-Scheme is a SSIP Registered Member and provides a FREE cloud based Supplier Management software for eligible PQS Registered Clients to monitor and manage your supply chain.

Partnering with clients, we remove the burden and costs to you of conducting stage 1 pre-qualification and other assessments of your supply chain. We assess your supply chain, you manage and monitor them using our FREE cloud based tool.

ISO9001

Clause 8.4 of ISO9001 requires you to have controls and apply criteria for the evaluation, selection, monitoring of performance, and re-evaluation of external providers; and to retain records of these activities.

FREE Cloud Based Service

The functions and features provide you with flexibility and choice on how you brand, use and configure your own unique cloud based portal. It has been designed by clients for clients with the intent of addressing the many challenges and demand on businesses.

Health & safety pre-qualification of suppliers and contractors does not need to be undertaken in isolation. The software can be used to pre-qualify and manage suppliers on a wide range of themes, including;

- | | |
|-------------------|-------------------------|
| ✓ Environment | ✓ Social Value |
| ✓ Quality | ✓ Modern Slavery |
| ✓ Equality | ✓ Business Continuity |
| ✓ Data Protection | ✓ Professional Standing |

“ The software has transformed our pre-qualification and on-going administration of suppliers and contractors. We have real-time information, saving us time & effort maintaining various approved lists ”

- Joe McDermott, SHEQ Director, McDermotts
