

We understand the importance of speed without compromising quality. That's why we offer a dedicated Fast Track Assessment Service, designed to prioritise your application and return your assessment within an accelerated timeframe.

Whether you're up against a tender deadline or need your SSIP approval urgently, PQS offers a Fast Track service designed to speed up your assessment without compromising on quality.

The **48-hour Fast Track** option is ideal for clients working to urgent deadlines. For an additional fee of **£100 + VAT**, your application will be prioritised and assessed within 48 hours.

For more time-critical situations, our **24-hour Fast Track** option ensures your assessment is completed within just one working day. This premium service is available for **£200 + VAT**.

Both options are available as an upgrade and are charged in addition to the standard assessment fee.

Please note: Fast Track turnaround times begin only once your application is completed and submitted to your assessor. If additional information is required, this may affect delivery times.

The Fast Track service guarantees prioritisation and accelerated processing, but maintaining accurate and complete submissions is key to ensuring your deadlines are met.

How to Purchase your Fast Track

Before Purchasing Your Assessment

When selecting your assessment, you will have the option to add a Fast Track service by choosing the relevant tick box.

This allows you to include the Fast Track upgrade at the point of purchase.

Once your assessment has been submitted and all required documentation is in place, your Fast Track service will be applied and your application prioritised for review.

After Purchasing Your Assessment

If you have already purchased or submitted your assessment, you can still upgrade to Fast Track.

Simply contact our team at enquiries@pqscheme.com to request the service.

We will issue an invoice for the additional Fast Track fee, and your upgrade will be applied as soon as payment has been received and processed.

“ Excellent service. Submitting details is straightforward, and questions easy to follow. I highly recommend this company for assessments. Fast turn around, great service. ”
